Preschool Registration

This letter contains all the information and lists the forms you will need to register your child for preschool.

The forms that require a doctor or dentist appointment should be returned as your child visits the doctor and dentist—preferably this spring and early summer, but definitely in August. As a state-licensed preschool, we are required to have these forms on file; therefore, **please don't plan on sending your child to school if we don't have all the forms needed.**

If you need assistance or have questions about the forms, our school secretary, Rose, works 8:00 to noon on school days and is in the cubicle outside the northwest door of the sanctuary. She can be reached by phone at 432-6912 or e-mail at secretary@tlsboone.us.

Home visits will be scheduled electronically via an email in early August.

The fees for preschool include a place-holder fee paid at the time you register your child, and a tuition fee. If you choose to pay the tuition monthly, the automatic withdrawal form needs to be filled out with the first payment scheduled for September.

Three-year-old students may qualify for tuition assistance through BooSt Together for Children Early Childhood Iowa Area Board if your income falls within their guidelines. You will receive an email from secretary@tlsboone.us when these forms are available.

Students who are 4 years old on September 15th will qualify for free tuition through the Boone Schools' participation in the Statewide Voluntary Preschool Program. The form with "Student Information" on one side and "Family Information" on the other side qualifies your student for this program.

Consent Form

Date of Screening: ______________________

Is this child currently seeing an eye doctor? ☐ **No** ☐ **Yes, name of eye doctor/clinic:**
____ **City** ____________________

If yes, the screening is not necessary and may not be conducted in order to use our limited resources for children whose vision problems have not been identified.

Free vision screening will be offered to children by a local Lions Club. Screenings are in conjunction with Iowa KidSight, in the Department of Ophthalmology and Visual Sciences at University of Iowa Children's Hospital. Vision screening produces images of a child's eyes to determine the presence of eye disorders including far- and near-sightedness, astigmatism, anisometropia (unequal refractive power), strabismus, (misaligned eyes), and media opacities (e.g., cataracts). No physical contact is made with a child and no eye drops are used during the vision screening. This screening is approximately 85-90% effective in detecting problems that can cause reduced vision.

Participation is voluntary. This screening is designed for pre-school-aged children. Children who are younger than 6-months old will not be screened. No child will be screened without a signed and completed consent form. Each individual child needs his/her own consent form. If you have questions, please contact: Iowa KidSight, 2431 Coral Court #5, Coralville, Iowa 52241, or 319-353-7616, or kidsight@uiowa.edu.

I, the undersigned, hereby give permission for my child, ______________________, to participate in the screening event. I understand the following regarding this program:

1. The information obtained from this screening is preliminary only and does not constitute a diagnosis of vision problems.
2. I will be contacted with the results of the screening through Iowa KidSight at University of Iowa Children's Hospital, or through my child care provider who aided in arranging the screening. I may be contacted regarding follow-up for vision referral by Iowa KidSight staff at University of Iowa Children's Hospital.
3. This screening result may satisfy the requirement for vision screening upon entry to kindergarten, and may be recorded in the Iowa Immunization Registry.
4. I am responsible for arranging a full eye examination with a doctor of my choosing if my child has been referred as a result of the vision screening. Iowa KidSight recommends a dilated eye examination.
5. The results of your child's eye examination will be shared with Iowa KidSight as a means to help evaluate the screening program's effectiveness.
6. Iowa KidSight will maintain the confidentiality of all records and results.
7. I will not hold the Lions Club and its volunteers, Lions Clubs organizations, University of Iowa Children's Hospital, or affiliates, accountable for any errors of commission, omission or other misdiagnosis. There are no foreseeable risks to participating in the Iowa KidSight vision screening.

Student Date of Birth _____/_____/________ Student Home Zip Code ________________

TO THE PARENT OR GUARDIAN: To fully assess the health of your child's visual system and prevent future learning problems associated with undetected vision problems, regular professional eye exams are essential. Experts estimate that 80% of learning is obtained through vision. Good vision directly contributes to a child's ability to learn while in school. As a part of your back-to-school preparations, it is recommended that you take your child and this card to your family eye doctor for a complete eye health examination. **This card should be signed by the eye care professional and returned to the school nurse or teacher by your child.**

Screening Information (health care provider must complete this section)

Date of Dental Screening: ______________________________

Treatment Needs (check ONE only based on screening results, prior to treatment services provided):

- ☐ **No Obvious Problems** – the child's hard and soft tissues appear to be visually healthy and there is no apparent reason for the child to be seen before the next routine dental checkup.
- ☐ **Requires Dental Care** – tooth decay[1] or a white spot lesion[2] is suspected in one or more teeth, or gum infection[3] is suspected.
- ☐ **Requires Urgent Dental Care** – obvious tooth decay[1] is present in one or more teeth, there is evidence of injury or severe infection, or the child is experiencing pain.

[1] Tooth decay: A visible cavity or hole in a tooth with brown or black coloration, or a retained root.
[2] White spot lesion: A demineralized area of a tooth, usually appearing as a chalky, white spot or white line near the gumline. A white spot lesion is considered an early indicator of tooth decay, especially in primary (baby) teeth.
[3] Gum infection: Gum (gingival) tissue is red, bleeding, or swollen.
